# Problem

According to research in 2022, there is an increase of about 15% in known startups from 587 in 2021 to 673 in 2022.

*Tanzanian startups face **communication barriers**, limited market traction, and **customer validation**, hindering their ability to demonstrate market potential and scalability to European investors. Additionally, **investors struggle to trust African startups** due to cultural differences and uncertainties surrounding the market landscape.*

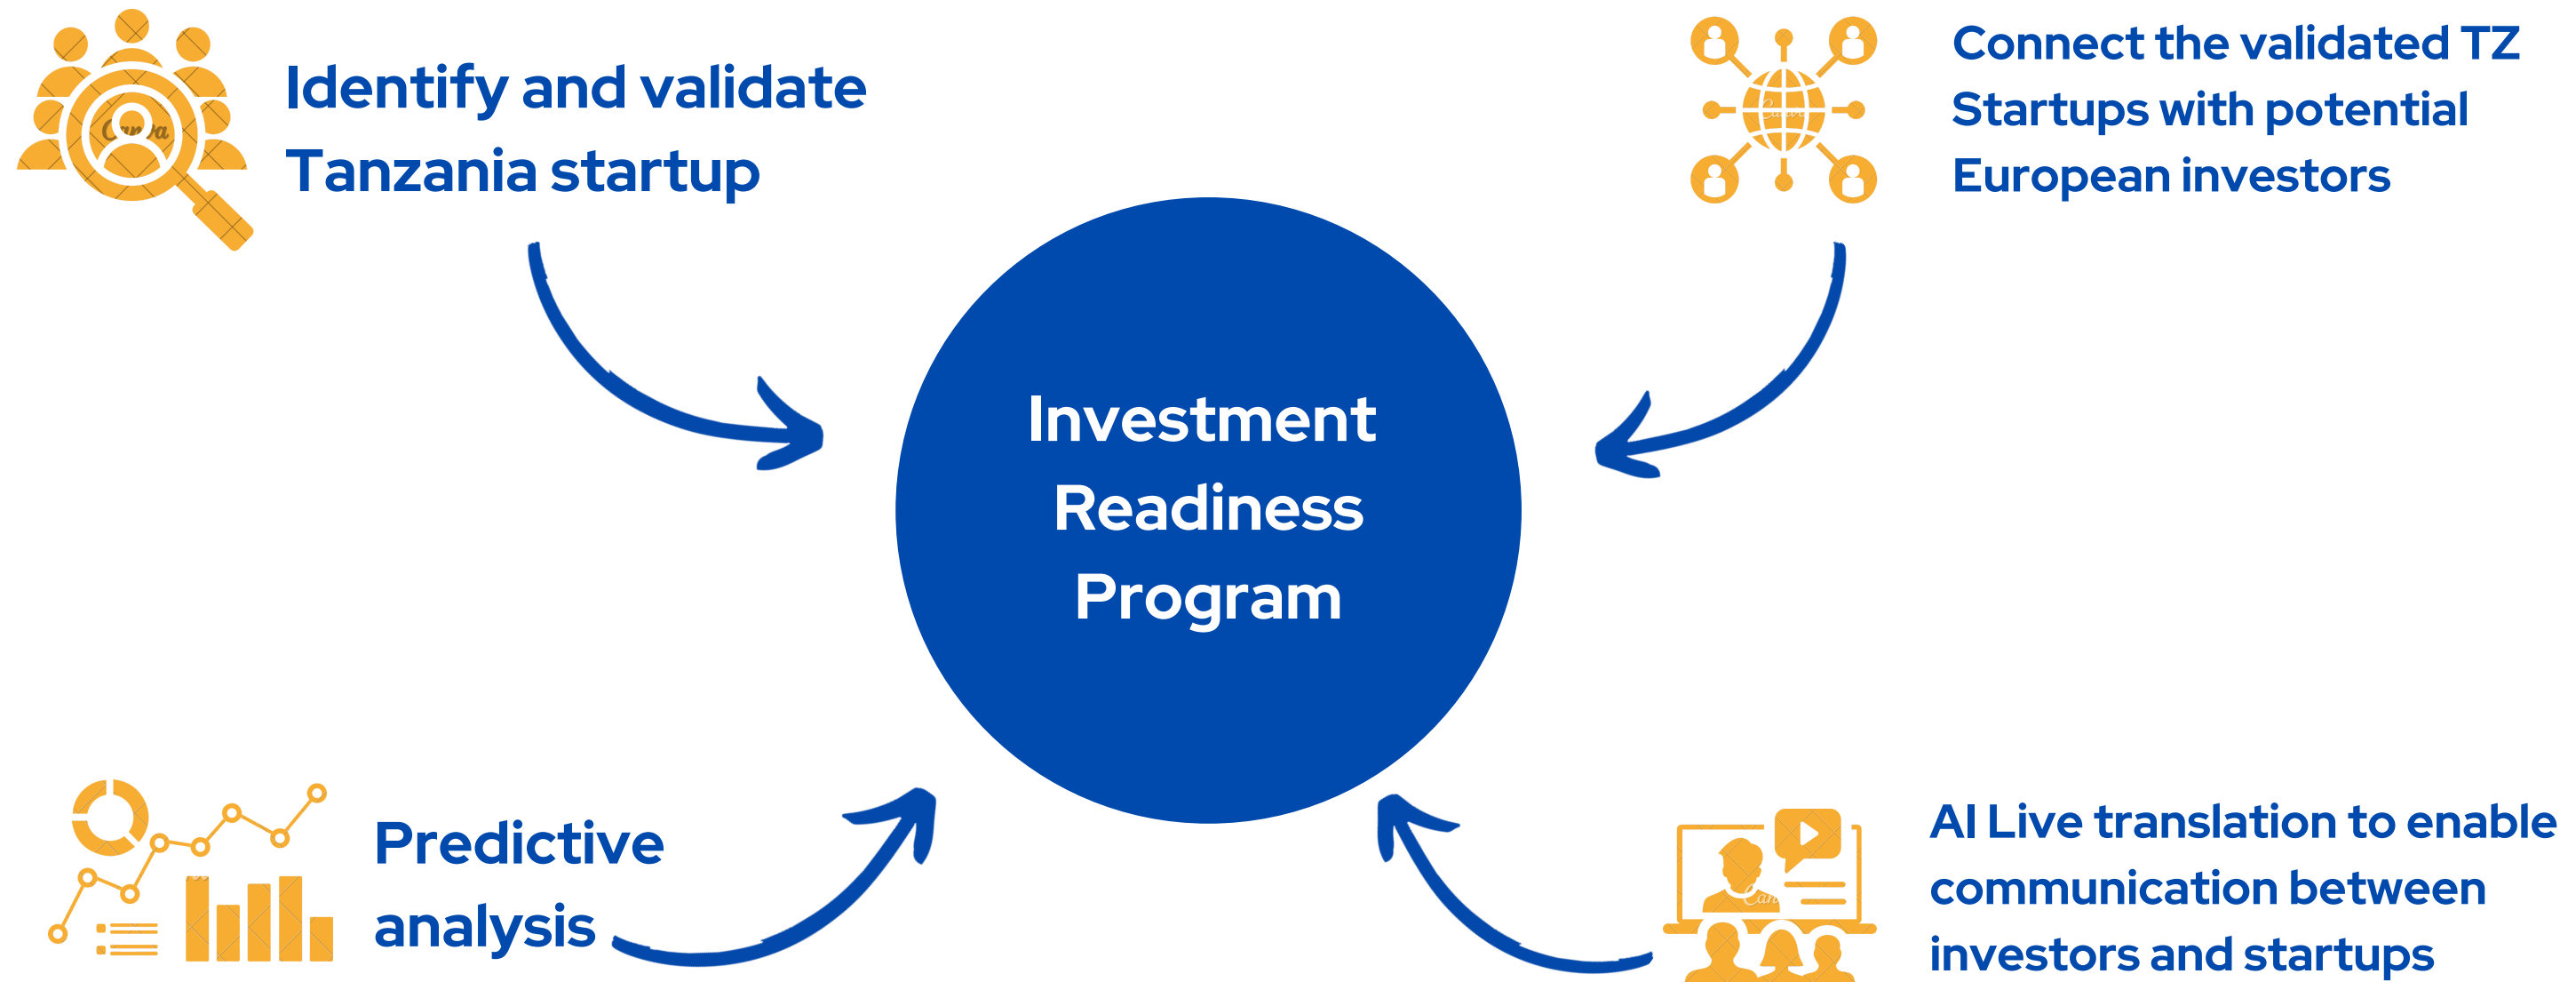

# Solutions

U-Konnect is an all-in-one digital platform designed to overcome the communication, market traction, and customer validation challenges faced by Tanzanian startups while building investor trust.

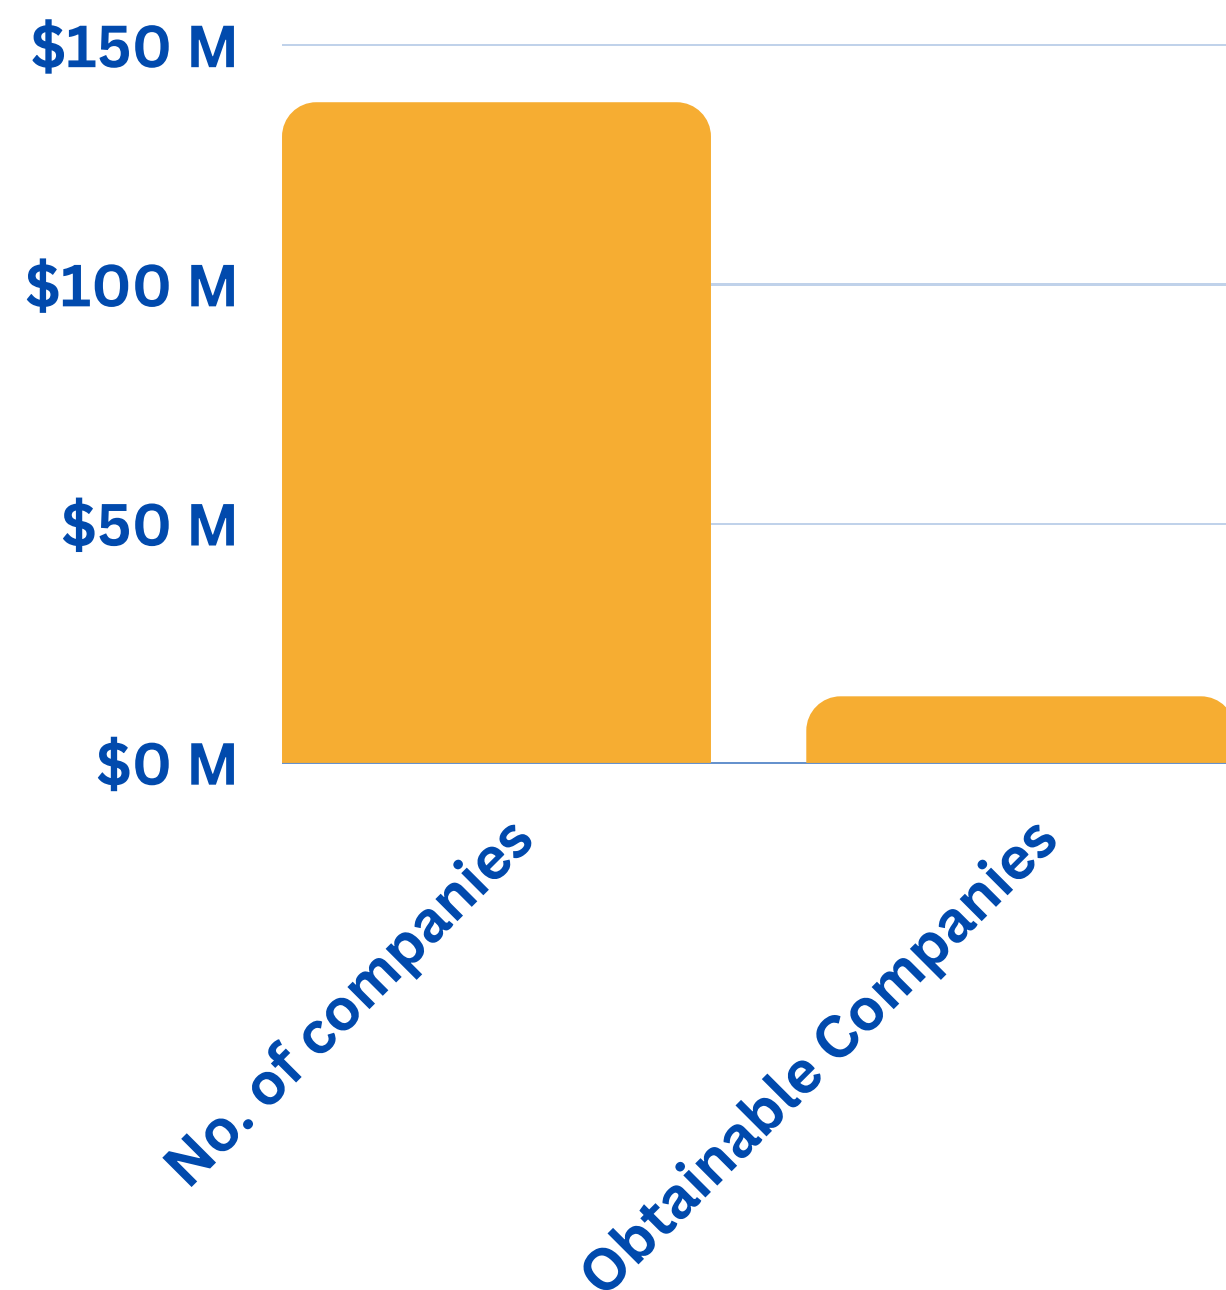

*U-Konnect facilitates cross-continental collaborations between Tanzanian startups and European investors, driving sustainable growth and fostering thriving entrepreneurial ecosystems.*
